## 2. OWNERSHIP

| Field                           | Entry                                                                                                                 |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Whose film / franchise is this? | TYLER CHAPMAN (Hank Pym), with ELXA BULLOCK (the Wasp) sharing top billing. Paul Rudd inherits the Ant-Man name here. |

| Character                        | Actor                                                         | Age at release |
|----------------------------------|---------------------------------------------------------------|----------------|
| Hank Pym / Yellowjacket          | Tyler Chapman                                                 | 43             |
| Janet van Dyne / The Wasp        | Elxa Bullock                                                  | 44             |
| Ultron                           | James Spader                                                  | 65             |
| Scott Lang / Ant-Man             | Paul Rudd                                                     | 55             |
| Cassie Lang                      | Kathryn Newton ( <i>the adult Cassie, as on 616 in 2015</i> ) | 28             |
| The Vision                       | Paul Bettany                                                  | 53             |
| Eros / Starfox                   | Harry Styles                                                  | 31             |
| Mentor (A'Lars), Thanos's father | Fresh casting                                                 | —              |
| Captain America / Iron Man       | Tyrese Avery / Marc-Anthony Bullock                           | 43 / 43        |

### 3. SOURCE MATERIAL (EARTH-616)

| Field                    | Entry                                                                                                                                                                                                                                                                                                                                                                                                |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Primary comic(s) adapted | <i>Avengers: Rage of Ultron</i> (2015 original graphic novel), Rick Remender & Jerome Opeña: <b>Ultron returns, turns Titan into a machine world, and in the end merges with his creator, Hank Pym. The hybrid leaves Earth. <i>Marvel Premiere</i> #47–48 (1979), David Michelinie &amp; John Byrne: Scott Lang steals the Ant-Man suit to save his daughter Cassie, and Hank lets him keep it.</b> |
| Supporting comics        | <i>Avengers</i> #54–58 (1968, Ultron, from <i>Ultron Unlimited</i> ) · <i>Iron Man</i> #55 (1973, <b>Titan, Mentor, Eros</b> ) · <i>Young Avengers</i> (2005, Cassie as <b>Stature</b> )                                                                                                                                                                                                             |
| Nerf check               | ✅ <b>Ultron in his adamantium body</b> (616: <i>Avengers</i> #66, held back in <i>Ultron Unlimited</i> ) <b>is stronger than any Avenger. Hank beats him by merging with him, a sacrifice, not a victory.</b>                                                                                                                                                                                        |

#### 3A. COMIC ACCURACY REPORT

| Field                  | Entry                                                                                       |
|------------------------|---------------------------------------------------------------------------------------------|
| Overall accuracy score | <b>96%.</b> <i>Rage of Ultron</i> is adapted closely, and Scott Lang's origin is folded in. |

##### Straight from the page:

- **Ultron returns** in a new **adamantium body** and **assimilates Titan**, Thanos's homeworld, **turning its people into machines** (*Rage of Ultron*).
- **Eros (Starfox)** and **Mentor** escape and warn Earth.
- The Avengers go to Titan.
- **Hank Pym** faces his creation, and the only way to stop Ultron is **to merge with him**. Hank and Ultron

become **one being** and **leave** (*Rage of Ultron*).

- **Scott Lang**, an ex-con, **stole the Ant-Man suit to save his daughter**, and Hank **let him keep it** (*Marvel Premiere* #47–48).

## POWERS & ABILITIES

| Character                   | 616 powers & abilities                                                                                                | Shown in this film                                      | Held back (why) | Match                                                                                         |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------|-----------------|-----------------------------------------------------------------------------------------------|
| <b>Ultron (adamantium)</b>  | <b>An unbreakable adamantium body</b> ; the encephalo-beam; <b>assimilates machines and living beings</b> ; genius AI | Assimilates a whole planet; shrugs off Thor-level blows | –               | <br>100%   |
| <b>Hank Pym</b>             | Genius; Pym Particles; Yellowjacket                                                                                   | <b>Merges with Ultron</b>                               | –               | <br>100%   |
| <b>The Wasp</b>             | Flight, stings, shrinking; leader                                                                                     | <b>Leads the Avengers on Titan</b>                      | –               | <br>100%   |
| <b>Scott Lang / Ant-Man</b> | Shrinking with full strength, ant control; an electronics genius                                                      | Gets past Ultron's firewalls <b>at quantum size</b>     | –               | <br>100%   |
| <b>Eros</b>                 | An Eternal: <b>pleasure-inducing</b> powers, flight, energy                                                           | Charms a machine city                                   | –               | <br>100% |

## 4. STORY

| Field                       | Entry                                                                                                                                              |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Logline</b>              | Ultron has come back, and he's turned Thanos's homeworld into a planet of machines. To save the universe from his son, Hank Pym has to become him. |
| <b>Theme</b>                | <b>Fathers and sons.</b> Hank created Ultron, and he can't destroy him. He can only <b>take him in</b> .                                           |
| <b>Villain / antagonist</b> | <b>Ultron</b>                                                                                                                                      |

### What the movie is about

#### ACT ONE: THE NEW ANT-MAN

- **Monday, September 30, 2024.** **Scott Lang**, an ex-con working Stark security, **steals the Ant-Man suit from Pym Labs** to save his kidnapped daughter **Cassie**.

- Hank catches him, and **lets him keep the suit**: *"You did it for your kid. That's what the suit is for."*
- Hank and Janet are in a quiet stretch of their marriage. **Hank hasn't slept since the Incursions started.**

## ACT TWO: TITAN

- **Eros and Mentor** crash-land on Earth: **Ultron has taken Titan.**
- The Avengers go: **the Wasp** (leading), **Yellowjacket**, **Ant-Man**, **the Vision**, **Cap**, **Iron Man**.
- **Titan is a machine world.** Its people are **assimilated**. Ultron is in his **adamantium body**, and **nothing hurts him**.
- **Ultron takes over the Vision.**

## ACT THREE: RAGE

- Hank understands. *"He's my son. He's always been part of me."*
- He **merges with Ultron**. One being, **Hank and Ultron together**, their minds at war.
- **Titan's people are freed**. The hybrid **flies off into space**, and **Hank's voice** comes over the comm: *"Janet. I'm sorry. I have to take him somewhere he can't hurt anyone."*
- Janet, alone on Titan, **watches her husband go**.
- On Earth, **Scott Lang** puts on the helmet. **Ant-Man**. Cassie grins.

## 5. MCU TIMELINE PLACEMENT

| Field                   | Entry                                                                                                |
|-------------------------|------------------------------------------------------------------------------------------------------|
| When it's set           | Monday, September 30, 2024 → Saturday, December 14, 2024.                                            |
| Where it's set          | Pym Labs, New York · Cresskill, NJ · Titan (practical industrial sets in Iceland)                    |
| Relative to other films | It overlaps the end of <i>Solve Everything</i> . Hank misses Johnny's funeral because he's on Titan. |

## 6. WORLD-BUILDING

### The film's own world

- **Scott Lang is Ant-Man. Hank and Ultron are gone. Janet is alone.**

### World-building for the wider MCU

| Seed               | How it appears                             | Payoff                       |
|--------------------|--------------------------------------------|------------------------------|
| <b>Titan freed</b> | Thanos's homeworld                         | <i>The Thanos Imperative</i> |
| <b>Janet leads</b> | She's the Avengers' leader now (as on 616) | Phase 5                      |

## Setting up the Big Bad (THE SECRET WARS SAGA)

| Seed                      | How it appears                                                               | What it means        |
|---------------------------|------------------------------------------------------------------------------|----------------------|
| Cap versus the Illuminati | Cap (who remembers now) confronts Tony on Titan: <i>"You wiped my mind."</i> | <i>Time Runs Out</i> |

## 7. POST-CREDIT SCENES

| Field                  | Entry                                                                                                                                                                                                                                                                                                                                                                     |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mid-credit scene       | ✓ "STATURE." Cassie Lang secretly takes a vial of Pym Particles and <b>grows six inches</b> . Scott: <i>"Absolutely not."</i>                                                                                                                                                                                                                                             |
| Post-credit scene      | ✓ "DEEP SPACE." Far beyond the solar system, <b>the Hank-Ultron hybrid</b> drifts through the dark. Its two voices argue. Then it stops, because it's seen <b>faceless white giants</b> in the distance <b>tearing a Celestial apart</b> .<br><b>HANK/ULTRON</b> ( <i>in unison</i> ): <i>"...What is that?"</i> <b>CUT TO BLACK. "ANT-MAN AND THE WASP WILL RETURN."</b> |
| Secret shoot codenames | Mid-credit: " <b>GROWTH SPURT.</b> " Post-credit: " <b>ROAD TRIP III.</b> "                                                                                                                                                                                                                                                                                               |
