Casting notes:

- **Oscar Isaac*** plays Apocalypse and Moon Knight, the same precedent as Laurence Fishburne and Brian Tyree Henry. The two never share a scene. **Apocalypse is a full prosthetic and performance-capture role.**
- Ian McKellen is locked as Magneto. **The Age of Apocalypse's Magneto is a man in his prime, so he's digitally de-aged (the SLJ precedent).** McKellen performs every dramatic scene*; *the action uses doubles and his de-aged face.*

*In memoriam: Stan Lee (1922–2018), who co-created the X-Men (X-Men #1, 1963). The X-Men's hidden base, Wundagore, has one wall of names of the dead. The first name is "Charles." The last line on it, by itself, reads "Excelsior."****
