3. SOURCE MATERIAL (EARTH-616)

Field	Entry
Primary comic(s) adapted	<i>Iron Man: Extremis</i> , <i>Iron Man</i> vol. 4 #1–6 (2005–06), Warren Ellis & Adi Granov: Maya Hansen, Aldrich Killian, Mallen , and Tony injecting himself with Extremis . " <i>Haunted</i> ", <i>Iron Man: Director of S.H.I.E.L.D.</i> #29–32 (2008), Stuart Moore & Carlos Pacheco: the Mandarin forces Maya Hansen to perfect Extremis for a worldwide release.
Supporting comics	<i>Iron Man</i> #281–284 (1992): Tony builds the " Variable Threat Response Battle Suit ," and Rhodey takes it as War Machine · <i>Iron Man</i> vol. 5 #23–28 (2014), Kieron Gillen: after the Mandarin's defeat, the ten rings leave to seek new bearers
Nerf check	✅ Mallen beats Iron Man badly in their first fight, exactly as in <i>Extremis</i> #3. Tony wins the rematch because Extremis makes him stronger than ever , not because Mallen got weaker.

3A. COMIC ACCURACY REPORT

Field	Entry
Overall accuracy score	96% . <i>Extremis</i> is adapted almost beat for beat, joined to the Mandarin's Extremis scheme from " <i>Haunted</i> " (2008).

Straight from the page:

- **Extremis** is a nanotech **super-soldier virus** from **Futurepharm** in **Austin, Texas**. It rewrites the body's "repair center" and needs a **cocoon stage** (*Extremis* #1).
- **Aldrich Killian** leaks Extremis and **takes his own life** (#1). This happens off-screen for PG-13.
- **Mallen**, a domestic extremist, is injected with it and gains **super strength, regeneration, and fire breath**. He massacres an FBI convoy in **Houston** (#1–2).
- **Mallen beats Iron Man badly** (#3).
- **Tony, near death, has Maya Hansen inject him with Extremis**. He goes into a **cocoon**. He comes out able to **store the armor's undersheath inside his hollow bones, control the armor with his mind, and connect directly to every network and satellite on Earth** (#4–5).
- **The Mandarin coerces Maya into perfecting Extremis** so he can release it worldwide ("Haunted").
- **Tony builds the War Machine armor and Rhodey takes it** (*Iron Man* #281–284).
- **When the Mandarin falls, the rings leave to seek new hosts** (vol. 5 #28).

Changes and why:

| Change | Why |

|---|---|

| The Mandarin's Extremis plot (2008) is combined with *Extremis* (2005) | It gives the Iron Man trilogy one villain throughout. The Mandarin carries through all three films. |

| War Machine (1992) arrives in the Extremis-era film | Rhodey has earned his own armor since "Next time, baby" in 2008. |

| Maya Hansen's fate | She survives the film. Her 616 death (2008) is held back, and **she's arrested for her part in the Extremis program**. |

Villain / antagonist	The Mandarin (main); Mallen (his Extremis enforcer); Aldrich Killian (the leak that starts it)

What the movie is about

ACT ONE: THE LEAK

- **Monday, January 7, 2013.** Eight months after *The Avengers*, Tony is paying for the team, running Stark Industries, and not sleeping. He's building armor after armor in the Avengers Mansion basement. He's **stayed sober**, and Pepper sees the building for what it is: a new bottle.
- In **Austin, Texas**, **Dr. Maya Hansen**, an old acquaintance of Tony's, calls in a panic. Her partner **Aldrich Killian** has **leaked Extremis** and **taken his own life**.
- **Houston**: a man named **Mallen**, injected with Extremis, **wipes out an FBI convoy** with fire and bare hands.

ACT TWO: THE COCOON

- Iron Man goes after Mallen, and Mallen **almost kills him**. The armor is shredded, Tony's organs are failing, and Rhodey drags him out.
- Maya offers the one thing that could save him: **Extremis**.
- Tony agrees. He goes into the **cocoon**.
- In the dark, his heart stops. Only the audience sees **the hooded woman** standing at the foot of the bed. **She looks at Tony, then turns away**. He wakes.
- **Tony comes out of the cocoon changed**. He can think the armor onto his body and hear every phone in Texas. In the **rematch** in downtown Houston, he takes Mallen apart.
- Maya's funding trail leads to **the Mandarin**. He forced her to make Extremis stable for **mass release**.

ACT THREE: WAR MACHINE

- The Mandarin plans to spread an aerosol form of Extremis from his Makluan starship over **Beijing, Mumbai, Lagos and New York**, and whoever survives will be his army.
- Tony gives Rhodey the **Variable Threat Response Battle Suit**. Rhodey: "*Took you long enough.*" **War Machine** is born.
- **The Valley of Spirits**. Tony, in the Extremis armor, and War Machine fight through the Mandarin's Extremis soldiers.
- **Iron Man vs. the Mandarin** in his ring-powered armor. All ten rings against a man who runs his armor by thought. Tony uses **Extremis to overload the starship's reactor through the Mandarin's own link to it**.
- The Mandarin falls into the reactor core. **His body is never found**.

- Maya is arrested. At Avengers Mansion, Tony stands in the basement full of armors, then shuts the lights off and goes upstairs to Pepper.
- Final line, voiceover: *"They can take the suits. They can't take the armor. I am Iron Man."*
