3A. COMIC ACCURACY REPORT

Field	Entry
Overall accuracy score	97% . The Golden Age origin is almost exact, joined to the <i>Avengers</i> #4 flashback of how Cap was lost.

Straight from the page:

- **Frail Steve Rogers** is rejected by the Army. **Dr. Abraham Erskine** chooses him for **Project: Rebirth**. He's given the **super-soldier serum** and bathed in **Vita-Rays**, and he becomes the **perfect human**.
- A **Nazi spy (Heinz Kruger)** assassinates Erskine straight afterward, and the formula dies with him. **Steve is the only one**.
- **At Camp Lehigh, Virginia**, Steve poses as a **clumsy private**. The camp mascot, **Bucky Barnes**, walks in on him changing into costume and becomes his partner.
- **The first shield is the triangular one** (*CA Comics* #1), and it's later replaced by **the round shield**, a gift from **President Roosevelt** (*CA Comics* #2), made from an alloy **Dr. Myron MacLain** created by accident and could never reproduce.
- **The Red Skull**, Johann Schmidt, is Hitler's right hand. **In WWII he wears a red skull MASK** (Golden Age), so this Skull is a man in a mask. He uses the **Dust of Death**.
- **Cap and Bucky fight beside Sgt. Nick Fury's Howling Commandos** (*Sgt. Fury* #13).
- **The Invaders**: Namor and the android Human Torch appear in a battle montage.
- **April 1945**: Cap and Bucky try to stop **Baron Zemo's** explosive-rigged **drone plane**. Bucky is still on it when it blows up. **Cap falls into the icy North Atlantic** and freezes in suspended animation (*Avengers* #4).
